- Hands on build

The earth is known as the Blue Planet for a reason, it's no surprise that water is a dominant part of our everyday lives. The world's current challenge is to have enough water to supply the increasing demands on water while maintaining the planet's water quality. The Aquascape RainXchange™ System is a revolutionary design that combines a recirculating decorative water feature with a sub-surface rainwater harvest storage system. Learn how the system can clean, filter, and store water in a beautiful water feature that integrates easily into existing landscape. The RainXchange™ System offers companies, as well as consumers the opportunity to do their part to address some of the challenges associated with drought and the increasing problem of excessive urban run-off.

Time: 8:00am-5pm Cost: \$149 per person (3+ \$134)*
Lunch will be provided

AUG 14th - St. Charles, IL - 6N800 RT. 25, St. Charles, IL

Standard Build-A-Pond Day - In this construction-based course, we will cover the 20 steps to building an Aquascape pond and demonstrate how simple the process can be. Upon completion, customers will have a good working knowledge of the Aquascape system and the function of its main components.

Time: 8:30am-4pm Cost: \$99 per person (3+ \$89)*
Lunch will be provided
