

# Product Data Sheet

## MIDWEST LANDSCAPERS PRO™

## ALL PURPOSE POTTING SOIL

### Product Description:

An ideal potting soil for all sizes of containers, planters and hanging baskets. This blend, notably absent of perlite, allows for a natural look and provides ease of clean up when used onsite. A versatile mix - it can also be used as a soil amendment or mulch. It has been blended for nitrogen stability with bluechip and contains controlled release fertilizer for season long nutrient support. Use of variable gradations of pine, peat and coir allow for an excellent balance of water retention and drainage.

### Available In:

1.5 CF Bags • 2 CY Totes • Bulk

### Ingredient List:

- 1/2" Southern Pine Bark Fines
- 3/8" Southern Pine Bark Fines
- Canadian Sphagnum Peat Moss
- Coconut Coir
- Limestone
- Bluechip
- Controlled Release Fertilizer

### Technical Data:

Air Porosity	23-30%
Water Holding Capacity	54-60%
Bulk Density (@saturation*)	50-60 lbs/CF
Bulk Density (@manufacturing)	18-22 lbs/CF

\*Saturated weight @saturation is used to determine maximum dead load in a green roof application or other above grade applications.

### pH and EC:

pH	5.4-6.3
Electrical Conductivity (Saturated Paste-SME)	<2.0 dS/m

### Guaranteed Analysis:

N (NO <sub>3</sub> +NH <sub>4</sub> )	P (PO <sub>4</sub> )	K
>1.17%	>0.89%	>0.14%

### How To Use:
