

NURSERY PERENNIAL BLEND

PRODUCT DESCRIPTION:

The Nursery Perennial Blend is a pine based professional growing media designed for longer term crops, perennials, and shrubs in gallon containers and larger. Coarse and fine southern pine bark is used to provide proper particle size distribution promoting long term stability and structure. Canadian sphagnum peat moss is used to maintain water retention throughout cropping time. Compost is used to aid in moisture retention and buffering the pH from drastic swings in value. Bluechip (38-0-0) is included to stabilize the organic matter and blends to prevent any nitrogen immobilization. A fertility program is advised through liquid feed, top-dressed CRF or utilize incorporated CRF, contact Midwest Trading Sales team for more information.
