

Blended Hardwood Bark Mulch

PRODUCT DESCRIPTION:

The Premium Hardwood Bark Mulch is a blend of our Premium Hardwood Bark Mulch and local wood mulch. The logs are debarked at the mill and the bark is loaded onto barges for delivery to our yard in Ottawa, IL. The bark is off loaded and stockpiled. Prior to shipment, the bark is reground and blended with local wood mulch which comes from local tree services.

Blended Hardwood Mulch when spread correctly, reduces water loss, prevents erosion and minimizes weed growth. Blended Hardwood Mulch evens out soil temperature which helps prevent damage from the freeze-thaw cycle and mitigates winter heaving. This is an easy-to-handle mulch for all season benefits.
