

Organic Garden Mix

PRODUCT DESCRIPTION:

The Organic Garden Mix is a peat based growing media utilizing organic wetting agent, fertilizer, and Mycorrhizae. Canadian Sphagnum Peat moss provides superior moisture retention to prevent crops and plantings from drying out. Coarse and fine Southern Pine Bark are used to provide proper particle size distribution promoting long term stability and structure. Compost are used to aid in moisture retention and buffering the pH from drastic swings in value. Sand has been added to provide weight to the media to prevent strong winds from blowing over containers. The Organic Garden Mix works well in above grade seasonal planters, raised beds for vegetables, herbs and color crops.

AVAILABLE IN:

1 CF Bags
Bulk

IDEAL USES:

Vegetable production where organic production is desired or required

TECHNICAL DATA:

pH	5.5-6.5
EC (Saturated Paste-SME)	<2.0 dS/m
Bulk Density	22-28 lb/ft ³

INGREDIENT LIST:

- Southern Pine Bark Fines
- Canadian Sphagnum Peat Moss
- Compost
- Sand
- Iron Sulfate
- Organic Fertilizers
- Mycorrhizae
- Organic Wetting Agent

Organic Garden Mix	(0.10-0.07-0.14)
Guaranteed Analysis	
Total Nitrogen (N)**	0.10%
0.10% Water Insoluble Nitrogen	
Available Phosphate (P ₂ O ₅).....	0.07%
Soluable Potash (K ₂ O)	0.14%

**Contains 0.1% slow release nitrogen

Derived from: Hoof Meal, Meat and Bone Meal, Cocoa Shell Meal, Sulfate of Potash, Bone Meal and Feather Meal.

*Bulk Density @ Saturation as determined by ASTM E2399 Maximum medium density for dead load analysis of vegetative roof system.
